Light Publications is pleased to announce the release of the latest book from award-winning author and storyteller Mark Binder.

Rhode Island is a quirky state with quirky people and unusual food. These “Legends” aren’t exactly true, (except the food parts,) but they’ll give you a sense of the place and a good laugh too.

The Seagull, The New York System, a Winnebago, and The Big Blue Bugs is a limited edition chapbook that is ONLY available in some stores, and directly from the author’s website:

Began as a Covid project...

“In between hours spent being one with the couch, I got bursts of energy,” said Mark Binder. “I put together a collection of three ‘Rogue’s Island’ stories as a limited-edition chapbook. Based on my absurdist/fabulist performances, this was the first time that some of these stories were written down.”

NOT available on Amazon

Although most books and audio from Light Publications is available on Amazon and Audible, this chapbook, and it’s sibling **A Dead Politician, An Undead Clam, and An Ancient Horror** are available only in hardcopy printed form. The audiobook, which is digital only, will NOT be available on Audible.

“I feel very strongly that Amazon shouldn’t control everything,” Binder explained. “It’s only available in a few stores and directly from us either in person or on my website at markbinderbooks.com/seagull”
